Sargam Griffin

## **Abstract Art** - by Lynne Taetzsch

Abstract art, abstract artists, and the daily practice of painting and drawing.

Featured Abstract Artist: Sargam Griffin

California abstract artist Sargam Griffin says that large surfaces excite her.

“They’re expansive and give room for expression. I want everyone to feel open, expanded and inspired when they look at my work because that’s what I experience when I’m creating it.”

## Sargam Griffin

I love Sargam's openness, her spontaneity and freedom. Her color sense is amazing as well. This one has wonderful texture and fluidity:

## Sargam Griffin

Sargam paints in oils, mixing high quality pigments with resin and varnishes. A single painting may take up to 40 layers of translucent paint to achieve the great depth in her work.

You can view more of Sargam's work on her website and watch a video where she describes her painting process. Sargam says, "The painting is complete when it is independent of me." I like that.
