"Sargam's work is breathtaking. The interplay of light, color, and texture transcends the medium to evoke responses that dive beneath our veneers to penetrate our souls. Sargam creates truly transcendent art that will stimulate the spirit and senses even after years of contemplation."

"Good Design and originality do not often come together. Sargam exemplifies the fusion of the two qualities. She is exceptionally talented, with an unchanging eye that identifies what will work for your environment."

"Sargam's dynamic art, gracefully reflects her great passion for color, depth and form. She paints with total freedom and her works demonstrate her involvement throughout her journey in developing truly creative pieces. I am thrilled to have my first painting from Sargam on my mantle. Whenever I come into the room, it speaks to me on many levels. It is always new, and it brightens my soul. Her works, are like no others I've seen, which is in itself refreshing."

strong energy in motion - emotion

"Sargam, Your beautiful expression of the quiet energy of your heart is truly a delight to behold. It opens my soul to experience your art. May you always have this unfolding expression of love to share with us."

"Beautiful, strong, deep. You have my vote and sincere wishes that you will be one of the Winners. I find your abstracts to be the best works I have seen here so far, consistency, depth, color combination, etc. I also love your statement, you have put your heart in your art. I would love to own one of them. I will visit your website later on. You should be one of the winners here."
